What is Tothesmart

Tothesmart is a Play to earn mining farm built on the **Binance Smart Chain** blockchain.

This is an open smart contract with a unique mathematical model based on the successful model of mining bitcoin and other cryptocurrency mining...

Our goal is to create a large international community and further develop the **Tothesmart ecosystem** in the cryptocurrency market, where all early community members will be generously rewarded when launching new products.

To The Smart

**BINANCE
SMART CHAIN**

Economy

+5%
daily

- Buy miners, each miner will bring you 1 MineToken every second.
- Sell tokens for the stablecoin Busd or reinvest in buying miners to earn more.
- You can earn **5%** of the current value of the miners daily, which you can reinvest in the purchase of miners or selling them.

Economy

Calculating the purchase of miners:

$$\text{Buy Busd amount} / (\text{Buy Busd amount} + \text{Contract Balance}) * \text{Market Minetoken} / \text{working time}$$

Calculating ReMines (purchase of miners for MineToken):

$$\text{Minetoken amount} / \text{Working Time}$$

MineToken sales calculations:

$$\text{MineToken} / (\text{MineToken} + \text{Market Minetoken}) * \text{Contract Balance}$$

Market MineToken - the amount of MineToken in the market.

Initial amount = 333000000000. 20% of each purchase amount of miners and ReMines, as well as 100% of the MineTokens sale amount are added to the value of Market MineToken.

***Working Time** - miners working time. Working Time = 1728000 (number of seconds in 20 days) If you don't make any transactions within 20 days (buying miners, selling MineToken or ReMines) then the miners will stop. Any of these transactions will get the miner running again.

***Contract Balance** - the contract balance, which increases with every purchase of miners and decreases with every sale of a MineToken. The Contract Balance determines the profitability of miners, which makes the economy more stable.

Free Miners

Every member can get free miners for 10 Busd and check how the system works, but the ReMiners and Windrow feature will not be available until a minimum purchase of 50 Busd miners is made.

Anti-kit Functions

The problem with such miners is that the user who logged in at the very start of the project, gets super profits due to the rapid growth of the contract balance from zero to the first million.

We have solved this problem and made our economy more balanced with a formula that will add Busd to the current balance until the contract balance exceeds this 500,000 Busd mark.

500,000
Busd

Time Pool

00 : 01 : 03

1000000 BUSD

Example

Thanks to the Time Pool mechanism, you will no longer have to worry about being the last player to buy miners. How it works:

1% from each purchase of miners, as well as 1% from each sale of MineToken is transferred to a Time Pool smart contract. If you bought miners and no one made any purchase within 60 minutes after that, then the entire Time Pool balance will be automatically transferred to your wallet address.

It's never been more profitable to be last!!!

The total turnover of purchases and sales is 100,000,000 Busd, this means that 100,000 Busd will accumulate on the Time Pool contract balance. If no one bought more miners within one hour of your purchase, then 1,000,000 Busd will be automatically sent to your wallet address.

This will be an exciting race. Check your current contract balance by clicking here [BALANCE TIME POOL](#)

Commission

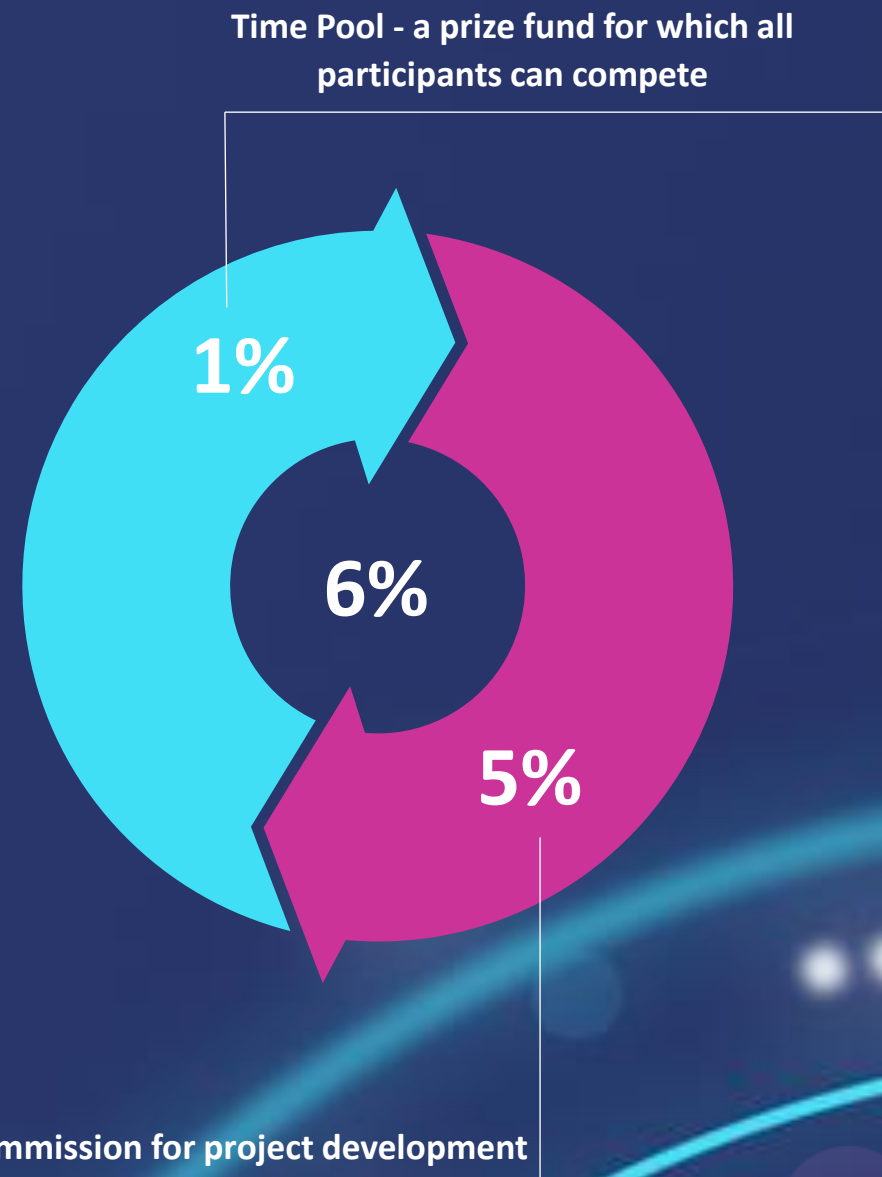

A 6% commission is charged for every purchase of miners and sale of MineToken:

5% - Dev commission for project development

1% - Time Pool - a prize fund for which all participants can compete

Also, a 5% commission will be charged on the available miners with each sale of MineToken, this is an additional mechanism of protection against whales, which makes the system even more balanced.

You need to keep this in mind when developing your mining strategy.

Strategy

When developing your own mining strategy, you have to take into consideration the commission for buying miners and selling mined tokens, as well as some other features:

➤ 1. Tax on miners %

It's not a profitable strategy to sell MineTokens every day, since each sale reduces the number of your miners by 5%. Use the ReMines feature to earn more.

➤ 3. Inflation

Tothesmart uses a unique inflationary model for the cost of miners, which depends on the amount of miners in the market and the contract balance, which means that over time miners decrease in value, just like ASICs for bitcoin mining, for example. Thus you need to use the ReMines feature in order to increase the income or keep the farm income within an acceptable range for you.

➤ 2. Binance Smart Chain network commission

You should keep in mind that Binance network fees are not constant and may increase when the network is heavily loaded. Your profitability may be reduced by network fees with a minimum investment of 50 Busd.

➤ 4. Strategy Game

Players who play to earn a Tothesmart project need to follow a certain ReMine strategy to increase their revenue and prevent miners from getting burned.

Strategy game

One of the key factors used by cryptocurrency projects to stabilize their tokenomics is token burning. We have decided to apply this as a game mechanism in the **TOTHESMART** economy. Players who play to earn a Tothesmart project need to follow a certain ReMine strategy to increase their revenue and prevent miners from getting burned.

Each ReMine cycle should increase the power of your farm by 100 miners.

~ 100 Miners - sell MineToken	ReMine ~ 16 days
~ 200 Miners - sell MineToken	ReMine ~ 10 days
~ 300 Miners - sell MineToken	ReMine ~ 7 days
~ 400 Miners - sell MineToken	ReMine ~ 6 days
~ 500 Miners - sell MineToken	ReMine ~ 5 days
~ 600 Miners - sell MineToken	ReMine ~ 5 days
~ 700 Miners - sell MineToken	ReMine ~ 4 days
~ 800 Miners - sell MineToken	ReMine ~ 4 days
~ 900 Miners - sell MineToken	ReMine ~ 3 days
~ 1000 Miners - sell MineToken	

You can reinvest several cycles in a row without selling tokens and earn even more. In the case of sales in the middle of the cycle you will be fined and the number of your miners will be reduced to the value of the previous cycle. For instance, if you sell tokens at a farm capacity of 120 miners, then 20 miners will be burned. Until your farm reaches 1,000 miners, token sales in the middle of the cycle will be blocked. You will be able to sell tokens within a farm's power range of no more than 5% of each cycle's power:

100 - 105 Miners, 200 - 210 Miners..., etc.

Strategy game

If your farm reaches **1000+ miners** you can sell at any time, but do not forget that when selling the number of miners can be rounded up with a small loss.

We have introduced this restriction on the site for the convenience of our players. You can sell tokens through a smart contract directly at any time. But don't do it if you don't have the experience to not suffer losses.

Strategy Game is one of the algorithms that **Tothesmart** uses to stabilize its economy and the smooth operation of the Tothesmart mathematical model. And also to motivate players to work according to the strategy, to maximize their profits.

Tothesmart is a **Play To Earn** project built on **Web 3.0** that will become a reliable tool for profitable farming and can remain relevant indefinitely.

Choose the right strategy and win with Tothesmart!

Ambassador program

Grow the Tothesmart community and earn even more with our developed Ambassador Program. You earn in 2 cases:

- Profit from purchases of miners by your community.
- Profit from sales of MineToken by your community

Unlock You Level	Min. Buy Miners	When Buying Miners	When Selling MineToken
1 Line	100 Busd	5%	-
2 Line	250 Busd	4%	-
3 Line	500 Busd	3%	-
4 Line	1000 Busd	2%	1%
5 Line	2500 Busd	3%	1%
6 Line	5000 Busd	4%	1%
7 Line	10000 Busd	5%	1%

Example

Just recommend Tothesmart to your friends, and your income will grow exponentially.

Generations	Turnover of your team	revenue	Daily earnings
1 Line	1000 Busd	50 Busd	-
2 Line	5000 Busd	250 Busd	-
3 Line	25000 Busd	1250 Busd	-
4 Line	125000 Busd	6250 Busd	62.5 Busd
5 Line	625000 Busd	31250 Busd	312 Busd
6 Line	3125000 Busd	156250 Busd	1562 Busd
7 Line	15625000 Busd	781250 Busd	7812 Busd
Total:	19531000 Busd	976550 Busd	9748 Busd

This way you can earn **1 million Busd** and get a good passive income every day.

Road Map

Tothesmart Miner is just the first product of a large ecosystem that we plan to implement

Q4 2022 Launch of Bep 20 token which will become the main payment means in all Tothesmart products.

5% of token purchases and sales on the exchange will be automatically allocated to the Tothesmart smart contract. Early community members will also receive an airdrop. Calculations will take into account the income received in Tothesmart Miner.

Q1 2023 ToTheSmart Miner 2.0, where users will be able to mine Tothesmart ecosystem token.

An ecosystem will be established around the Tothesmart token with various advanced tools and cryptocurrency market trends. In order to prevent copying, a detailed roadmap will appear at the launch of the token.

Q1
2023

Go to chainlist.org

Go to <https://chainlist.org/> and search for „Binance Smart Chain Mainnet “. Below the box press „Connect Wallet» and allow metamask to add the network to your wallet. The BSC network should now be added to your Metamask wallet.

Switch the network in your Metamask wallet

To do this, click on the current network at the top of your MetaMask wallet. Then click on Binance Smart Chain Mainnet. Done! You can now connect to our Dapp!

Go to the Playmarket or Appstore and install Metamask app

FAQ

What is the price of a MineToken?

MineToken does not have a fixed price. The price depends on the TVL (contract balance). The higher the TVL, the higher the MineToken price, the lower the TVL, the lower the MineToken price. It also depends on the MarketMine value.

What is the daily percentage?

You will earn up to 5% of the miners current value per day, this figure can be changed with using your ReMine strategy.

Why is my daily income dropping?

Your strategy affects your profitability. If you sell MineToken frequently, your rewards will drop. Also you pay 5% tax in each withdrawal from your miners. Use ReMine feature to increase your income.

Can I use ReMine multiple times a day to increase my income?

Yes, it will also increase your profitability, but don't forget that you have to pay a commission to Binance Smart Chain for each transaction.

Can I restore the Bust that Miners were purchased with?

Tothesmart is a blocked bounty pool, so you can't sell miners, you can only sell MineToken that your miners are mining.

Why can't I see my referrals?

This is a decentralized smart contract, we do not store any data about users. Nevertheless, you can see all referral charges on our website, the information is transmitted directly from the smart contract.

What % commission?

The commission is 5% from miner purchases and 5% from MineToken sales. There is no commission for ReMine. There is also a third-party commission for using the Binance Smart chain network.

Does the number of miners decrease when selling MineToken?

Yes, just like ASICs for Bitcoin 5% of available Miners Tothesmart are broken every time a MineToken is sold. They cannot be repaired, but you can buy new miners using the ReMine feature. Keep this in mind when developing your own mining strategy.

Can developers make changes to the smart contract?

No, once the contract has been deployed in the Binance Smart Chain network, no one can affect it, delete or change the code. Also our smart contract is reliable, you can read its audit from a third-party company. This is published on the main page of the site.

FAQ

A1 - 32 BUSD

How can I get 10 Busd miners as a gift?

Any user can get miners worth 10 Bust as a gift from Tothesmart. But you can't sell MineToken or use the ReMine feature unless you have a minimum purchase of 50 Busd worth of miners. This is a protection against abusers, we have to protect our smart contract so that all user are safe.

If I don't have enough minimum amount of purchased miners to receive rewards from line 4 of the ambassadorship program, will I lose referral rewards?

Yes, if your volume of purchd miners is not enough to receive the reward, you will lose. It is recommended to reach the required volume of purchases in time.

A new user has appeared in line 4 of my community, but I have not received a reward, why?

Check that the amount of your purchases matches the table. You do not have to make a one-time purchase of miners, the amount of purchases will also be taken into account.

How much can I earn with the Ambassador Program?

There is no limit to how much you can earn for developing your community, it just depends on your efforts. Tell your friends and subscribers about us and earn even more.
